REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Trustees
Albuquerque Community Foundation and Subsidiaries

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Albuquerque Community Foundation (a nonprofit organization) and Subsidiaries (the Foundation), which comprise the consolidated statements of financial position as of December 31, 2015 and 2014, and the related consolidated statements of activities and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Albuquerque Community Foundation and Subsidiaries as of December 31, 2015 and 2014, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating statements of financial position and the consolidating statements of activities and changes in net assets on pages 29-32 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

In-kind contributions	$ 34,034	$ 30,550

The accompanying notes are an integral part of these consolidated financial statements.

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. Organization

Albuquerque Community Foundation (the Foundation) is a nonprofit, publicly supported philanthropic institution in Albuquerque, New Mexico that manages a pool of charitable funds whose income is used to benefit the community through its grants to local nonprofit organizations, educational programs, and student aid awards.

Contributions and bequests are received from individuals and corporations. The Foundation coordinates receipt and investment of charitable contributions, distributes funds for community needs, and serves as a leader and educational resource by encouraging philanthropy.

During 2000, the Foundation created ACF Holdings, LLC for the purpose of acquiring, selling, and otherwise dealing with certain property interests periodically conveyed by donors to the Organization. ACF Holdings, LLC is consolidated with the financial statements of the Foundation.

During 2010, the Foundation received the donation of a building to be used for the operations of the Foundation. The building is a historic building located in downtown Albuquerque. Upon completion of the renovation, the Foundation moved its operations into the building in June 2012. The Foundation created a wholly-owned subsidiary, Historic Champion Grocery Building, LLC ("HCGB LLC") to hold the building. HCGB LLC is consolidated with the financial statements of the Foundation. The renovation costs are recorded as a depreciable asset.

2. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Albuquerque Community Foundation and its for-profit wholly owned subsidiaries, ACF Holdings, LLC and HCGB LLC. All significant intercompany balances and transactions have been eliminated.

3. Estimates

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

4. Income Tax Status

The Foundation is a nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code, and has been classified as an entity that is not a private foundation. Management of the Foundation believes that the activities of the Foundation are within their tax-exempt purpose. ACF Holdings, LLC and HCGB LLC are disregarded entities for tax purposes, therefore, no provision for income taxes is provided for in the accompanying consolidated financial statements.

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

4. Income Tax Status – Continued

The Foundation does not have any uncertain tax positions for the years ended December 31, 2015 and 2014. Any interest and penalties associated with a tax position, when applicable, are classified according to their natural classification in the Foundation's consolidated financial statements. Under the statute of limitations, the Foundation's tax returns are no longer subject to examination by tax authorities for years prior to 2012.

5. Cash and Cash Equivalents

For purposes of the accompanying consolidated statements of cash flows, the Foundation considers all cash depository accounts and highly liquid investments with original maturities of less than 90 days to be cash equivalents. Certain money market funds within the investment portfolio classification are donor restricted and are not considered cash equivalents.

6. Investments

Investments in marketable securities are carried at fair value; investments in closely held businesses are carried at their estimated net realizable value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Realized gains and losses are recorded on a specific identification method upon the sale of investment assets. The fair value of investments is subject to ongoing fluctuation. The amount ultimately realized upon disposition may differ from the amounts reported in these consolidated financial statements.

7. Concentrations of Credit Risk

The Foundation maintains deposit and investment accounts with various financial institutions and investment brokerage firms. Depository accounts with financial institutions are insured by the Federal Deposit Insurance Corporation; insurance limits on investment accounts vary by financial institution and by type of investment. Balances in these accounts may, at times, exceed federally or commercially insured limits. The Foundation has not experienced any losses on such accounts, and management believes it is not exposed to significant credit risk from these accounts.

8. Property and Equipment

Property and equipment are stated at cost. Depreciation is provided for all depreciable assets on a straight-line basis over the estimated useful lives of the assets, and is allocated to each functional category based on utilization. The Foundation capitalizes all asset acquisitions over $2,500 and $1,000 for 2015 and 2014, respectively. Depreciation expense for December 31, 2015 and 2014, was $113,865 and $123,830, respectively. Land is not depreciated.

The Foundation reports gifts of land, buildings, and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Donated property is recorded at estimated fair value as of the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support.

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

8. Property and Equipment – Continued

Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support.

9. Charitable Remainder Trusts

The Foundation has been named as a beneficial recipient in several charitable remainder trusts. Under the terms of the trust agreements, the Foundation acts as the trustee. The donor has the right to change beneficiaries or the percentage allotted to the Foundation for the trusts. These are accounted for as an obligation until the trust principal reverts to the Foundation and is recorded as a contribution. Assets held in charitable remainder trusts totaled $2,141,899 in 2015 and $2,306,064 in 2014 and are reported at fair value in the Foundation's consolidated statements of financial position. During 2014, the Foundation recognized $119,619 of contribution revenue from two of the charitable remainder trusts. Included in grants payable are amounts to other beneficiaries of $532,166 at December 31, 2014.

Additionally, the Foundation is the beneficiary of the residual for several other charitable remainder trusts. Assets held in these trusts totaled $885,611 in 2015 and $959,130 in 2014 and are reported at fair value in the Foundation's consolidated statements of financial position. Annually, the Foundation revalues the liability to make distributions to the designated beneficiaries based on a percentage of the fair value or other amounts as specified by the trust agreement. The present value of the estimated future payments using discount rates ranging from 5.6 - 7.7% and applicable mortality tables was $471,045 in 2015 and $519,293 in 2014.

10. Contributions

Contributions received, including unconditional promises to give (pledges and bequests), are recognized at fair value as revenues in the period received. Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and nature of any donor restrictions. Bequests are deemed unconditional promises to give and are recognized as revenue and receivables when the probate court declares the will valid and the fair value of the Foundation's interest in the estate is determinable.

Pledges and bequests that are expected to be received within one year are recorded at their estimated net realizable value. Pledges and bequests that are expected to be received in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free discount rates applicable when the promises are received. Amortization of the discounts is included in contribution revenue. Management has provided an allowance for doubtful unconditional promises, for all amounts believed to not be fully collectible. Management evaluates the value of pledges and bequest receivables on an annual basis in order to identify any circumstances where the Foundation may receive less than what they have recorded. The Foundation has not experienced any such circumstances.

Conditional promises to give are not included as support until the conditions are substantially met. The Foundation is the beneficiary from time to time of certain bequests not yet recognized that have various levels of conditions. Associated revenue is recognized when all conditions of the promise are substantially met.

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

11. Liability for Assets Held for Community Organizations

Contributions are not recognized as revenue when the Foundation functions in the capacity of an intermediary, trustee, or agent; in these situations, contributions are recognized as a liability for assets held for community organizations. See Note G.

12. Net Assets

The accompanying consolidated financial statements are prepared in accordance with generally accepted accounting principles for nonprofit organizations. Under these provisions, net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets – net assets that are not subject to donor-imposed stipulations or subject to the Foundation's spending policy. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees. Board designations have been made for operating reserves in the amounts of $566,234 and $531,100 at December 31, 2015 and 2014, respectively.

Temporarily Restricted Net Assets – net assets that are subject to donor-imposed stipulations or that are subject to the Foundation's spending policy that may or will be met by the occurrence of a specific event or the passage of time. When a donor restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the accompanying consolidated statements of activities and changes in net assets as net assets released from restrictions.

Permanently Restricted Net Assets – net assets required to be maintained in perpetuity, with only the income used for operating activities, due to donor-imposed restrictions. Permanently restricted net assets consist of a donated building of $544,000 at December 31, 2015 and 2014.

13. Donations and In-Kind Contributions

Donated cash, securities, real estate, furniture and equipment, and in-kind contributions of services that qualify are recorded as assets or contributions at their estimated fair value at date of receipt. As donations and in-kind contributions are utilized, expense is recorded. Total donation and in-kind contributions were $34,034 and $30,550 for the years ended December 31, 2015 and 2014, respectively.

14. Endowment Administration

Management fees of $634,879 and $593,346 were charged by the Foundation for administrative costs for the years ended December 31, 2015 and 2014, respectively.

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

15. Marketing

The Foundation uses marketing/donor development activities to promote its programs. Such costs are expensed as incurred. Marketing/donor development expense for the years ended December 31, 2015 and 2014, was $96,643 and $101,298, respectively.

16. Functional Expenses

The Foundation reports its expenses according to four functional classifications: Distributions and Grants, which includes the direct costs of providing benefits and services to the nonprofit community; Community Outreach; Management and General; and Fundraising. Common costs are allocated among the classifications on the basis of actual direct staff resources applied to the various operational areas within the Foundation.

17. Subsequent Events

The Foundation has evaluated all events occurring subsequent to December 31, 2015, and through June 8, 2016, which is the date that the consolidated financial statements were available to be issued. No matters were identified by management that should be recorded or disclosed.

NOTE B – UNCONDITIONAL PROMISES TO GIVE

The Foundation has outstanding promises to give from various donors. The balance of the outstanding unconditional promises to give is expected to be received as follows:

	2015	2014
Less than one year	$ 103,156	$ 48,817
One to five years	-	17,000
	103,156	65,817
Less unamortized discount (discount rates range from .27% - 1.03%)	(308)	(746)
	$ 102,848	$ 65,071

NOTE C – BEQUESTS RECEIVABLE

In 2014, the Foundation received legal notification that it was named as a beneficiary of two bequests. The Foundation is not acting as trustee of the bequests. The trust assets include an IRA and property. As of December 31, 2014, management determined an adequate estimate of the net realizable value, which was recorded as a receivable of $1,004,197. During 2015, the Foundation received more property from one of the bequests. Management determined an adequate estimate of the net realizable value, which is recorded as property held-for-sale.

In 2009, the Foundation received legal notification that it was named as beneficiary of two bequests. The Foundation is not acting as trustee in either of the bequests. Many of the assets of the two trusts were not easily valued and include property that is currently in probate. Additionally, each trust has multiple beneficiaries, and some of the beneficiaries are contesting the trust. Due to these factors, the Foundation did not record the realizable value of the bequests during 2009. In 2011, the Foundation collected $84,000 from one bequest with no additional amounts outstanding. Additionally in 2011, the Foundation received the first installment for the second bequest of $166,655; however, the remainder of the bequest still contains uncertainties, therefore the Foundation elected not to record the remaining realizable value of the bequest as of December 31, 2015 and 2014, respectively.

NOTE D – PROPERTY AND EQUIPMENT

Property and equipment are comprised of the following at December 31:

	2015	2014
Building improvements	$ 1,552,045	$ 1,549,439
Building	544,000	544,000
Furniture and fixtures	243,459	219,026
Computer equipment	69,548	69,548
Website	25,095	25,095
	2,434,147	2,407,108
Less accumulated depreciation	(574,112)	(460,247)
Property and equipment, net	$ 1,860,035	$ 1,946,861

The Foundation is not depreciating the building as it is registered as a local historical landmark. However, depreciation has been recognized on the cost of the renovation.

NOTE E – CHARITABLE REMAINDER TRUST ASSETS

The beneficial interest in charitable remainder trusts is comprised of the following at December 31:

	2015	2014
Cash	$ 107,569	$ 183,784
Investments	2,755,061	2,912,161
Cash surrender value of life insurance	164,879	169,249
	$ 3,027,509	$ 3,265,194

NOTE F – INVESTMENTS

The Foundation's policy is to pool cash and investments for greater investment return. Investment income (loss) and unrealized gain (loss) on investments are allocated to each charitable fund based on its share of the pool. Investments are summarized as follows:

	2015	2014
International equity	$ 19,249,879	$ 17,030,551
Multi strategy funds	10,384,973	8,906,540
Fixed income	8,779,650	8,815,834
Private equity	5,750,557	6,252,097
Domestic equity	5,630,195	8,896,036
Real assets	5,500,911	6,409,196
Cash	1,267,486	1,784,219
Other	270,001	270,001
	$ 56,833,652	$ 58,364,474

Investment returns consist of the following:

	2015	2014
Dividends and interest	$ 975,593	$ 805,716
Realized and unrealized (losses) gains	(2,479,647)	2,050,179
	$ (1,504,054)	$ 2,855,895

Investment consulting fees were $84,082 and $83,625 for the years ended December 31, 2015 and 2014, respectively.

NOTE F – INVESTMENTS – CONTINUED

The Board of Trustees of the Foundation, who is responsible for all stewardship of the Foundation, delegated to the Investment Committee the responsibility to ensure that the assets of the Foundation are managed in a manner that is consistent with the policies and objectives of the Foundation. The Investment Committee elected, as allowed by action of the Board, to engage an independent investment-consulting firm to assist the Committee's activities. The Investment Committee meets at least quarterly with its investment consultant to review investment performance, asset allocation, and all other matters related to fiduciary oversight of investment assets.

Increases or decreases in the fair value of investments are unrealized until the investments are sold. The Board of Trustees of the Foundation has the authority to change the level of distributions to preserve the assets of the Foundation to benefit future generations.

The Foundation holds investments in certain private equity ventures, which require the Foundation to commit capital to these investments as a stipulation of participation. The Foundation has committed capital to these investments of $15,040,000 and $12,250,000, of which $9,905,514 and $9,203,195 have been called and remitted as of December 31, 2015 and 2014, respectively. The remaining capital commitments of $4,352,144 and $3,046,805 are callable while the underlying funds are active. Failure to provide capital upon its call would result in the Foundation losing its right to invest in these ventures.

NOTE G – LIABILITIES FOR ASSETS HELD FOR COMMUNITY ORGANIZATIONS

The Foundation accepts assets from other nonprofit organizations and agrees to use those assets and related earnings on behalf of the beneficiary organization. The distribution of these assets follows the Foundation's spending policy as described in Note I.

Administrative fees earned by the Foundation under these arrangements were $70,861 and $74,181 for the years ended December 31, 2015 and 2014, respectively.

A summary of the activity in the liabilities for assets held for community organizations is as follows for the years ended December 31:

	2015	2014
Balance, beginning of year	$ 11,654,570	$ 11,006,043
Additions:		
Contributions	665,678	457,558
Investment income (loss) net of investment consulting fees of $21,232 for 2015 and $21,306 for 2014	(266,717)	704,987
Deductions:		
Distributions to beneficiaries	(560,087)	(439,837)
Administration fee paid to the Foundation	(70,861)	(74,181)
Balance, end of year	$ 11,422,583	$ 11,654,570

NOTE H – FAIR VALUE MEASUREMENTS

U.S. generally accepted accounting principles establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Marketable Securities, Multi Strategy Funds, Real Estate, and Real Assets:

Level 1 Fair value determined using quoted prices of securities held in active markets at year-end.

Level 2 Fair value determined using quoted prices for similar assets for substantially the full term through corroboration with observable market data.

Level 3 Fair value determined using unobservable inputs as determined in good faith by the investment manager of each investment.

Private Equity and Fixed Income: Fair value determined using net asset value as determined in good faith by the general partner in each investment.

NOTE H – FAIR VALUE MEASUREMENTS – CONTINUED

Real Estate: Fair value determined based on comparable land values.

Remainder Trust Assets: Fair value determined using net asset value of quoted prices of securities held in active markets at year-end, as well as the present values of future cash flows, based on the Foundation's ownership percentage of the fair value of the remainder trust assets.

Remainder Trust Liabilities: Fair value determined as the present values of future cash outflows, based on the Foundation's ownership percentage of the fair value of the remainder trust assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets/Liabilities at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Marketable securities	$ 23,433,258	$ 2,714,302	$ -	$ 26,147,560
Multi strategy funds	2,977,616	2,421,127	4,986,230	10,384,973
Fixed income	7,223,066	651,559	905,025	8,779,650
Private equity	-	-	5,744,962	5,744,962
Real assets	946,060	1,934,651	2,625,795	5,506,506
Real estate	-	270,001	-	270,001
Remainder trust assets	2,790,056	237,453	-	3,027,509
Remainder trust liabilities	(2,324,627)	(237,453)	-	(2,562,080)
	$ 35,045,429	$ 7,991,640	$ 14,262,012	$ 57,299,081

The following table sets forth a summary of changes in the fair value of the Foundation's level 3 assets for the year ended December 31, 2015:

	Private Equity	Multi Strategy Funds	Real Assets	Fixed Income
Balance, beginning of year	$ 6,252,097	$ 5,325,191	$ 2,269,620	$ 1,573,084
Realized and unrealized gains (losses)	513,486	(80,825)	467,970	54,838
Gross purchases, contributions, and settlements	197,500	2,251,081	113,139	-
Gross sales, redemptions, and settlements	(1,218,121)	(2,509,217)	(224,934)	-
Transfers	-	-	-	(722,897)
Balance, end of year	$ 5,744,962	$ 4,986,230	$ 2,625,795	$ 905,025

NOTE H – FAIR VALUE MEASUREMENTS – CONTINUED

Assets/Liabilities at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total

	$ 24,318,959	$ 3,046,805		

*All redemptions were suspended in December 2008. Redemptions began again in March 2010. Silver Creek commenced redemptions on a pro rata basis, as proceeds are received and excess cash is accumulated.

NOTE H – FAIR VALUE MEASUREMENTS – CONTINUED

Private Equity Funds

The investment strategy of the Common Funds is to invest in target funds, which in turn, make investments in the following strategies with the objective of obtaining long-term growth: Venture capital investments primarily in emerging growth companies; International private equity investments primarily in emerging growth companies; Private limited partnerships, which in turn, make investments in equity securities, warrants or other options that are generally not actively traded at the time of investment; Limited partnerships, which in turn, make international private equity investments.

The investment strategy of the TIFF funds are to assist members in maintaining endowment purchasing power by generating returns greater than those provided by global stock markets. TIFF capital is expected to be allocated primarily among private equity managers pursuing venture, operations-oriented buyout, special situation, and recapitalization strategies. It may make investments in U.S., foreign and global commingled private equity funds.

Blackstone Capital Partners VII: Blackstone Capital Partners VII will concentrate on making non-control and control-oriented private equity investments globally on a thematic, sector-focused basis. Blackstone takes a value-oriented approach to private equity investing. The team uses a top-down thematic and sector-based process for deal sourcing, and focuses only on those potential deals where it believes the Blackstone platform can be used to add value post acquisition by improving the operations of the businesses.

Audax Private Equity Fund: Audax Private Equity acquires lower middle market companies as part of a buy and build strategy, bringing both capital and operational resources to bear in creating value, and performing add-on acquisitions for platform companies. Audax Private Equity Fund V, LP will continue Audax's strategy of investing in lower middle market companies, employing a buy and build approach to value creation.

The investment strategy of the Permal Capital fund is capital appreciation through the purchase of existing limited partnership interests in independently managed private equity funds from third parties seeking liquidity prior to the contractual termination of such funds.

Fixed Income Fund

The investment strategy of PIMCO Bravo II is to provide long-term returns through a diversified fixed income philosophy. PIMCO attempts to add value through both "top-down" (duration, yield curve posture and sector rotation) and "bottom-up" strategies (individual security analysis). The BRAVO II Fund will continue to capitalize on the ongoing deleveraging by global financial institutions.

Real Asset Fund

Bridge ROC Fund: Bridge Investment Group Partners seek to buy attractively priced real estate to which it can add value and realize significant returns to investors. Bridge will invest across the United States and will focus its efforts primarily on assets in the multi-family and office sectors, but will also opportunistically invest in other sectors, such as retail hospitality, though these sectors are expected to represent a small portion of the portfolio and must meet a higher return hurdle.

NOTE H – FAIR VALUE MEASUREMENTS – CONTINUED

Real Asset Fund – Continued

Atlantic Trust MLP: Atlantic Trust MLP seeks to combine long-term investments in core publicly traded master limited partnerships with short-term opportunistic investments, including shorts and privates.

The investment strategy of Quantum is to invest the majority of Fund capital in the upstream oil and gas sector, but will make opportunistic investments across the value chain. This includes midstream infrastructure, oil and gas service companies, and power generation. Quantum will typically make control investments in its portfolio companies, with an investment size range of $100 to $400 million.

Multi Strategy Funds and Marketable Securities

Hudson Bay International Fund: Hudson Bay's strategy is focused on generating investment returns that are uncorrelated to equity and debt markets, through managing capital across an array of investment strategies that are hedged and exhibit low correlations to each other. Hudson Bay allocates capital across a wide variety of trades, within strategies such as event-driven equity, convertible arbitrage, volatility trading, and credit trading.

Titan Global Equity: Titan Global Equity allocates a majority of its capital to long/short equity hedge fund managers with an overall objective of producing positive absolute returns, largely independent of traditional asset class benchmarks. Titan will also allocate capital to Event Driven managers, who will tactically shift between equity and credit depending on perceived risk/return characteristics, and Multi-strategy managers that are predominately focused on long/short equity.

River Birch International: River Birch invests primarily in corporate credit situations with the philosophy of a globally-focused investment and trading firm. River Birch pursues a flexible and opportunistic long/short investment strategy aimed at creating a global and concentrated portfolio of corporate credits. The firm will invest across all levels of the capital structure in high yield and investment grade debt, distressed loans and bonds, special situations, and corporate structured credit. The portfolio aims to isolate credit risk, and as such, hedges out currency and interest rate risk, leading to a portfolio that is agnostic to overall interest rate and foreign exchange movements.

BlackRock Tempus: The BlackRock Tempus Fund seeks to exploit intermediate-term opportunities that straddle the public and private markets, and invests primarily through custom fund structures that BlackRock establishes with underlying managers.

Blackstone: The Blackstone Resources Select Fund is a long-biased, multi-manager commodity fund, designed to outperform traditional commodity index products. The Blackstone Resources Select Fund is invested with five underlying fund managers that Blackstone believes are the best traders in their respective commodity groups (Natural Gas, Crude Oil, Metals, Agriculture and Softs).

NOTE H – FAIR VALUE MEASUREMENTS – CONTINUED

Multi Strategy Funds and Marketable Securities – Continued

Aleutian Fund: Aleutian's sole focus is managing a market neutral long/short equity strategy through a multi-portfolio manager approach. The Aleutian Fund's investment objective is to generate long term appreciation of assets through an equity-focused portfolio that is implemented through a multi-portfolio manager approach. Each portfolio manager runs a sector/strategy-focused, beta-neutral sub-portfolio. While the majority of risk comes from fundamental long/short equity strategies, the Fund can opportunistically allocate to other strategies, such as convertible arbitrage, risk arbitrage, and volatility, based on the perceived attractiveness.

HG Vora Special Opportunities Fund: HG Vora follows an event-driven and value-oriented approach to investing, and manages its strategy through a single product, the Special Opportunities Fund. HG Vora seeks value investments where the team's experience and industry knowledge can provide an advantage in understanding companies with leveraged capital structures or undergoing complex situations, and establish long and short positions in both the debt and equity of those companies. The firm is a value investor first, but will also add value by being an activist, using its network to build a constructive dialogue with management teams for the benefit of the portfolio.

Pentwater: The firm specializes in event-driven trading, with a bias toward equities. The Event Fund is Pentwater's flagship fund; it is agnostic to equity and debt investments and is willing to take on less liquid credit investments, though these are limited in size by the manager's risk limits. The firm is biased toward the equity markets, though debt and credit derivatives can make up a significant portion of the portfolio as well (credit tends to average 20-30% of the Fund, but can vary further based on the opportunity set).

Silver Creek: Silver Creek has put an emphasis on creating a portfolio of managers displaying low correlations with each other and diversification of styles. The principal belief behind portfolio diversification is that proper manager and strategy diversification smoothes investment returns while mitigating risk.

NOTE I – ENDOWMENT FUNDS

1. Net Asset Classification

In 2009, the State of New Mexico enacted the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Accordingly, in 2009 the Foundation adopted U.S. generally accepted accounting principles as they relate to net asset classification of funds subject to an enacted version of UPMIFA. The Board of Trustees has determined that the majority of the Foundation's net assets meet the definition of endowment funds under UPMIFA.

NOTE I – ENDOWMENT FUNDS – CONTINUED

1. Net Asset Classification – Continued

The Foundation is governed by the Articles of Incorporation and most contributions are received subject to the terms of the Articles of Incorporation. Under the terms of the Articles of Incorporation, which delegates the distributions of funds to the Investment Committee in its Investment Policies and Procedures, the Board of Trustees has the ability to distribute so much of the corpus of any trust or separate gift, devise, bequest, or fund as the Board in its sole discretion shall determine. In accordance with UPMIFA and as described in the Foundation's Investment Policy, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

a. The duration and preservation of the fund
b. The purposes of the organization and the donor-restricted endowment fund
c. General economic conditions
d. The possible effect of inflation and deflation
e. The expected total return from income and the appreciation of investments
f. Other resources of the organization
g. The investment policies of the organization

As a result of the ability to distribute corpus, the Board of Trustees has determined that all contributions received subject to the Articles of Incorporation are subject to UPMIFA and are classified as temporarily restricted until appropriated, at which time the appropriation is reclassified to unrestricted net assets. Funds that can be spent down immediately and that are not subject to the Foundation's spending policy are classified as unrestricted. Contributions that are subject to other gift instruments may be recorded as permanently restricted, temporarily restricted, or unrestricted, depending on the specific terms of the agreement.

Generally, if the corpus of a contribution will at some future time become available for spending it is recorded as temporarily restricted; if the corpus never becomes available for spending it will be reported as permanently restricted. In addition, contributions that are promised to be given in a future period are presented as temporarily restricted until the payments are received.

2. Endowment Investment and Spending Policies

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. The Foundation's spending and investment policies work together to achieve this objective. The investment policy establishes an achievable return objective through diversification of asset classes.

To satisfy its long-term rate of return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives with prudent risk parameters.

NOTE I – ENDOWMENT FUNDS – CONTINUED

2. Endowment Investment and Spending Policies – Continued

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds for grant making and administration. The spending policy for 2015 and 2014 is to distribute 4% of the time-weighted average balance of each fund for the previous twenty quarters calculated as of December 31. If a fund does not have historical fund balances for twenty quarters then it shall instead use the total number of historical fund balances that it has. Generally, a fund must have a minimum of four historical quarters before a distribution is made. The time-weighted average will be computed by averaging the funds' monthly ending balances, after allocation of income, gains and fees, during each quarter, and then averaging the quarter ending balances. Donor advised and organization fund agreements allow additional distributions above the spending policy rates for each respective year with certain conditions as detailed in the agreements.

Endowment Net Asset Composition by Type of Fund as of December 31, 2015

	Unrestricted	Temporarily Restricted	Total
Donor advised funds	$ 17,888,263	$ 1,994,178	$ 19,882,441

NOTE J – TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets consisted of the following purpose and time restrictions at December 31:

	2015	2014
Field of interest funds	$ 12,920,903	$ 13,840,124
Donor designated organization funds	8,345,340	8,605,732
Student aid funds	4,181,658	4,458,583
Pass through funds	2,342,097	1,068,646
Donor advised funds	1,994,178	1,997,329
Charitable remainder trusts	465,472	616,837
Undesignated donor restricted	232,555	182,393
Operating fund	85,347	8,470
Champion building sponsorships	17,501	44,020
	$ 30,585,051	$ 30,822,134

The following temporarily restricted net assets were released from donor restrictions by the fulfillment of program and passage of time restrictions as of December 31:

	2015	2014
Grant distributions	$ 3,064,974	$ 1,678,317
Time restrictions	34,086	65,121
Other expenses	317,185	239,423
Management fees	424,794	353,452
Investment consulting fees	47,926	49,862
	$ 3,888,965	$ 2,386,175

NOTE K – COMMITMENTS

1. Leases

The Foundation currently leases certain equipment under various operating leases. The equipment lease agreements expire at various times through July 2019. Future minimum lease payments follow:

2016	$	8,183
2017		8,183
2018		8,183
2019		2,408
	$	26,957

Lease expense was $12,175 and $11,494 for years ended December 31, 2015 and 2014, respectively.

2. Major Contributors

For the year ended December 31, 2015, the Foundation received contributions totaling $4,050,760 from eight major contributors. For the year ended December 31, 2014, the Foundation received contributions totaling $2,145,243 from three major contributors.

3. Retirement Plans

In 2013, the Foundation established the Albuquerque Community Foundation 401(k) Profit Sharing Plan. The Plan is a self-administered Safe Harbor plan and allows for additional discretionary and matching employer contributions. The discretionary contributions follow a six-year vesting schedule. Participants must be 21 years of age and have one year of service. Contributions to this Plan were $19,388 and $15,437 for the years ended December 31, 2015 and 2014, respectively.

NOTE L – RELATED PARTY TRANSACTIONS

Various Board members or their companies donate to the Foundation in the form of contributions, in-kind goods or services, grants, and sponsorships. The amounts are recorded at fair value on the date of donation and reflected as either unrestricted or temporarily restricted based on the nature of the gift. Donations totaled $1,168,174 and $340,260 at December 31, 2015 and 2014, respectively.

NOTE M – NEW ACCOUNTING STANDARDS

The Financial Accounting Standards Board (FASB) has recently issued Accounting Standards Update (ASU) 2014-09, *(Topic 606): Revenue from Contracts with Customers* that was designed to develop a common revenue standard for U.S. GAAP and international standards. The core principle of this ASU is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Steps to apply the core principle are as follows:

1. Identify the contract(s) with the customer
2. Identify the separate performance obligations
3. Determine the transaction price
4. Allocate the transaction price
5. Recognize revenue when a performance obligation is satisfied

Several new disclosures will also be required to include sufficient information to enable users of the financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. This ASU will be effective for annual periods beginning after December 15, 2018.

On February 25, 2016, the Financial Accounting Standards Board issued ASU 2016-02, *Leases* (FASB Codification Topic 842) which significantly changes the accounting for leases in the financial statements of lessees and supersedes FASB Codification Topic 840. With this update, GAAP now will require lessees under operating leases to recognize a liability in the statement of financial position (balance sheet), a liability to make lease payments (the lease liability), and an asset representing its right to use the underlying asset for the lease term. For leases with a term of 12 months or less, a lessee is permitted to make an accounting election not to recognize lease assets and lease liabilities. If a lessee makes this election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. Cash flows related to operating leases will continue to be reported within operating activities on the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2019.

In May 2015, the Financial Accounting Standards Board issued ASU 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent).* With this update, investments that are measured at net asset value as a practical expedient for fair value are excluded from the fair value hierarchy. By removing these types of investments, the intent is to eliminate the diversity in practice that currently exists with respect to how these investments are categorized. The only criterion for categorizing investments in the fair value hierarchy will be the observability of the inputs. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016.

As of the date of these financial statements, management has not determined the impact these new ASUs will have on future reporting periods.
